

■ POLYMER ADDITIVES

JADEWIN Ecamsule

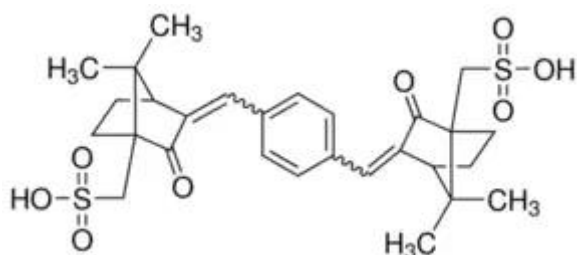

CHEMICAL COMPONENT

COMPONENT Therephthanalylidene dicamphor sulfonic acid solution (33% in water)

CAS 92761-26-7

Molecular C28H34O8S2

M.W 526.69

SPECIFICATION AND PHYSICAL PROPERTIES

Water soluble, odorless, pale yellow solution, 33% solution in water

FEATURE AND APPLICATION

- * UV A Sunscreen, effective use of 1%~10%
- * Very soluble in water, very stable material, the best UV A block, antioxidative effect

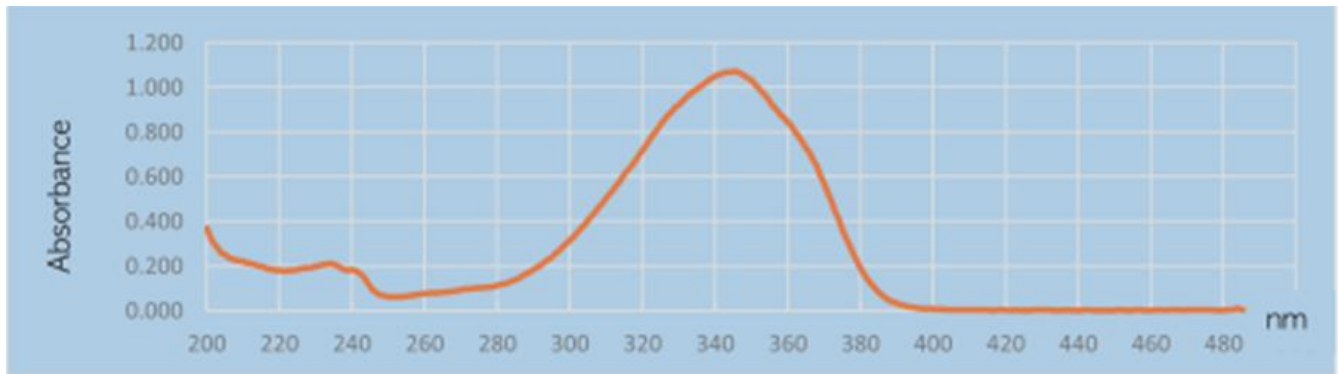

PACKING

20KG 200Kg

Quality

Suitable for all Ecamsule test items specified in the U.S.Pharmacopoeia (41)

UV ABSORPTION data of Ecamsule

STORAGE

Keep container tightly closed and dry and storage in cool place

CHEMICAL INVENTORIES

Australia - AICS
Canada - DSL
EU - EINECS
China - IECSC
Japan - ENCS
Korea - ECL
USA - TSCA
Philippines - PICCS
